

• SANDER

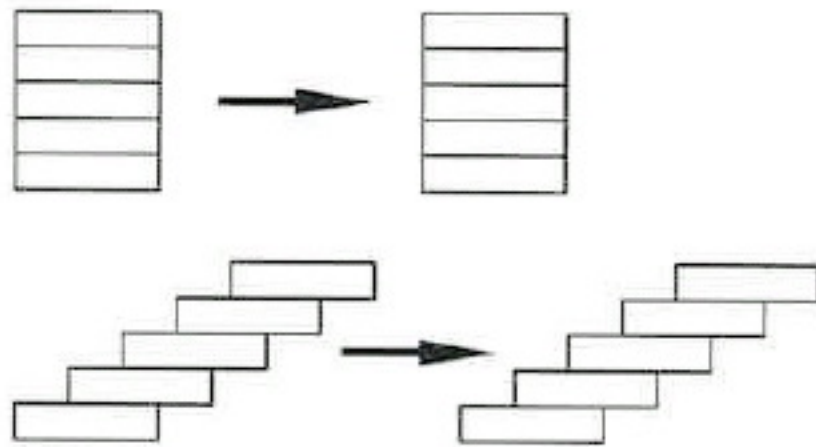

MODEL UNI 240-KU/120

PASS HEIGHT _____

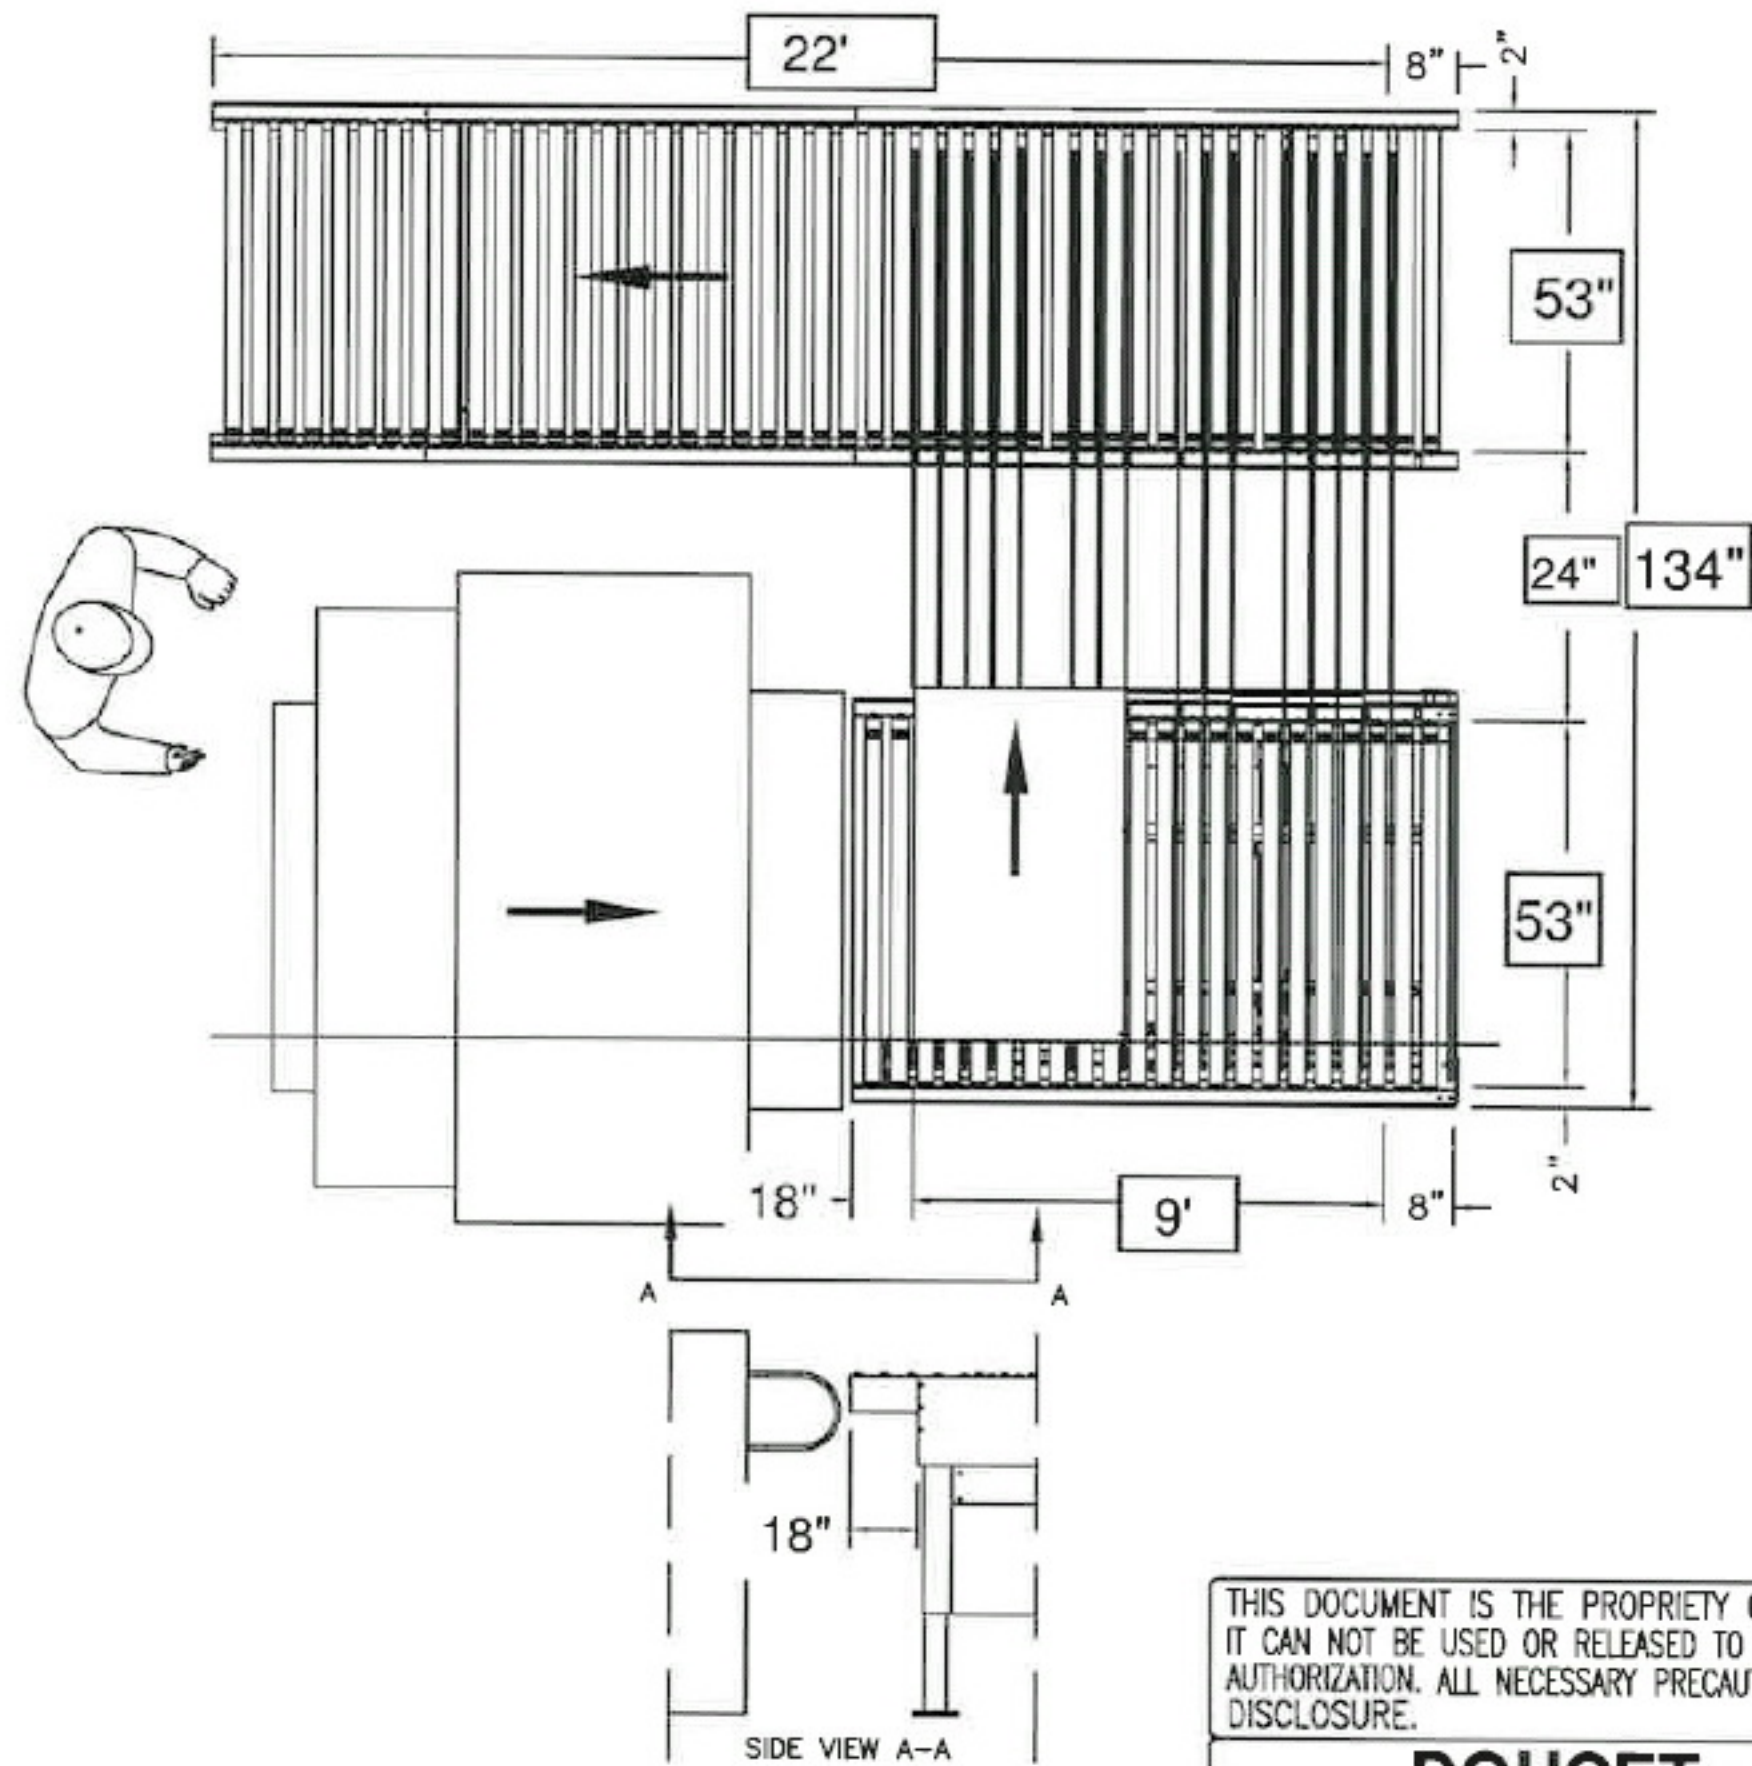

• APPROVED BY:

DATE : _____

- Even or staged parts assembly must be run through the sander as a block forming a panel that will meet the conveyor capacities in width and belts spacing. Each assembly needs a reasonable distance in order to create an opening to activate electronic eyes and to avoid assembly conflict. No gap between parts is allowed in order to complete total transfer.

- Minimum material dimensions 4" wide by 12" long.
- Parts must be run length wise.
