Sales - Liquidations - Auctions - Appraisals - Consulting

**Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries**

of joints per cycle; operator "steps" the assembled length past the automatic cutoff saw.

When a length stop is contacted by the assembled length, the cutoff saw fires, cutting up from under the table, and the finger jointed board is cut to its specified lengths. Long lengths can be assembled by relocating the length stop.

- **Tooling:** (1) Milled to pattern cutterhead and (1) each carbide tipped Retrim and Cutoff Sawblades.
