**Machinery for the Woodworking, Stone,
Glass, Plastic, and Metalworking Industries**

stiles can be programmed in minutes, automatic operation from one style and size of door to the next, straight raised panels & widths of stile or rail and end tenoning work the same.

- Electronic sensors measure the length of the part to be cut allowing for various width panels or rails to be shaped consecutively, once a door is pre-programmed it can be re-called.

Complete with: Electronic brake on spindles, (2) 5" dia. outlets for dust collection and UNIQUE's Windows based "Raised Panel Door" Software. .
