Description :

- 12" Conveyorized Glue Applicator, model "F-CGAP-12-10-20", 12" wide grooved rubber covered roller with stainless steel doctor blade. Large knobs for easy adjustment or removal of doctor blade. Limit switch with wand for automatically stopping the slat blade conveyor when stock reaches the RF Press or Clamp Carrier.
- Heavy Duty, 3-phase 0.5 HP motor drives the conveyor and glue roll; motor is equipped with an adjustable slip clutch to prevent damage in case of a material jam.
- All components are Heavy Duty for years of trouble free operation. The stainless steel glue pan and doctor blade are easily removed without tools for quick clean-up. Conveyor system is 32' in overall length, 10' before the glue roller and 20' after. - Optional: 12" wide holddown roll for face gluing of stock
