used in plastics application.

- Hydraulic serrated ram optimizes feed pressure by monitoring rotor motor amperage, lateral force on the ram is minimized by a unique "U-Joint" mounting system, Hydraulic clutch enables motor to start with the hopper full.
- **Features:**
- Heavy Duty structural steel frame, welded construction; integrated "plug-and-play" electrical control system with UL approved components (system UL certification available upon request for additional charge).
- Recommended for plastic, paper or wood applications.
